

Bud-Ferrie file

Report to Supt Police from Juvenile Bureau, 8/16/61

Interesting for many reasons. However, my recollection of some things may not be dependable. One is that the charges against Ferrie are of earlier date.

Martens was then working in Balter Bldg., which was the center of many anti-Castro and other activities. I regret the abbreviations (page 2) deny me full meaning.

This Landry affair seems to be of earlier date than Russo gave. If this is so, Russo's entire story is subject to deepest doubt, for he could have learned all of that from Martens, who he did know and was one of this group. Jonesau is the name of a policeman also assigned to Garrison as an investigator. He is one of the two policemen mentioned as investigating (Fournier other).

How interesting one of youths name Cheramie. (Albert).

Other names: Eric Michael Crouchet (p.4) Richard Dumas, Leo Bevon, James Landry, John Espenan (or Espenon), Lawrence Marsh (two unnamed, p. 1).

Note that at those days Martens had so little home contact he didn't know where his mother lived, also would tell police nothing.

It is Landry who "said he'd been to Cuba on several occasions since the revolution" but "refuses to say with whom or when trips were taken", but "American (sic) should wake up because Russians are only 90 miles away". It seems Ferrie mixed his aberrant sex and ditto politics.

8/22 entry, fake passport for Landry, to go to Honduras to mine? Like Ricardo Davis' later cover story.

8/29/61 clip identifies Jonesau as same who worked for JG, Fournier is Ronald.

12/19/62 surveillance: Dante Marochini (1309 Dauphine licensee of car Ferrie used pages numbered 30-8. Lewallen identified as pilot. Description man who parked car half block from 3330 La Eve Pkwy, 5-5, 250 lbs 45-50, could be Dean Andrews (p.34) Crouchet had continuu relationship Ferrie, after 1961 case. Ditto Martens. This original bond, not copy.

3/8/67 Duffy-Navarre interview with Mike Finney: CAP head Major Morrell was a shoe salesman (note LHO also said he was). Finney in CAP 1958-61, left when he found out Ferrie's "Falcons" not part CAP. Says didn't know LHO. Attached Benister interrogation. Met Ferrie when retained as investigator for him. "Firt by him, then by others (unnamed) to investigate the criminal charges made against him..." It was all a Communist plot against "patriotic" Ferrie. Garrison put a note alongside "I could find no 'connection' as Eastern calls it, between Ferrie and the so-called 'Cheramie' case", in the margin, reading "write Harold". No one ever did. Don't know why. Or, was it Bud?

CR87:620; CD72:493; CD7:211 (Al Pecararo); CD75:690-2; CD75:199-200 stapled together.

3/9/67, Duffy-Navarre Charles "oliday interview Knew Ferrie in CAP. Quotes him as having said "several times that he had a drug or a combination of drugs that he could take and no doctor could say he didn't die a natural death".

Bud's Ferrie file-2

EAL brief vs Ferrie, 22 mimeo pp.

11 criminal charges vs Ferrie, not six. Final discharge 3/1/63, after he refused to answer any questions about criminal charges on 2/18. P. 4 seems to say that NO police (Sgr Bournier) files 11 criminal charges. P. 5 suggests Cheramie passport legitimate Irion is disclosed as having much information about Ferrie not in FBI reports. Ferrie also treated him "for various sicknesses". Ferrie's CAP charter forged. He was out of CAP 1955-9, returning 9.59, when again forced out 6/60. But he appeared at CAP meetings 1955-60 dressed in Captain's uniform. (Irion), and participated. Irion strongly prejudiced in Ferrie's favor and said his opinion was not changed by law violations. Dismissal affirmed 9/9/63.

NOV 2/15/83, Major Adolph Meyerhafer to Giarrusso, inv. alleged extortion re Ferris. Rather interesting, considering LHO's later activities, Ferris arranged meeting with John T. Ceter for "Daniel and Beronne...in front of Wolgreen's Drug store", a location convenient to the address of neither. (But attached Ceter statement says he picked this place because he passes it.)
